

NIFTY SPOT : IMMEDIATE SUPPORT AT 25000-24850

Source – TradingView, BP Equities Research

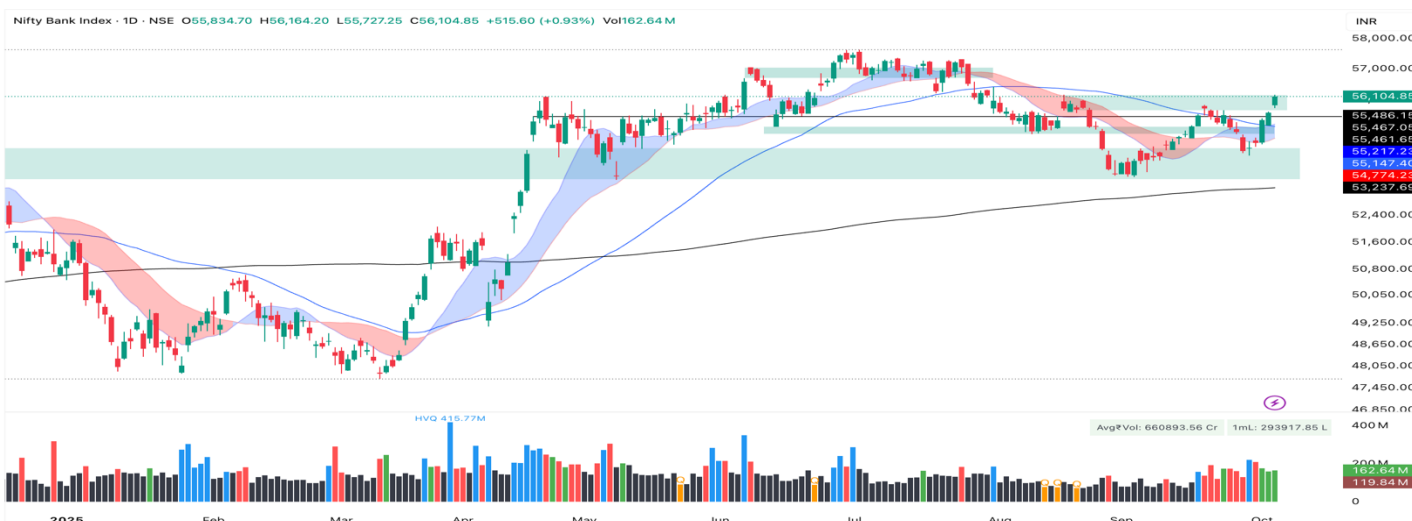

The benchmark index experienced a significant breakout yesterday, decisively crossing and closing above its crucial resistance zone of 25,050. This move, backed by healthy volumes, signals a potential end to the recent consolidation and a resumption of the uptrend. The previous resistance zone around 25,000 will now act as a strong support base for any potential dips. With momentum turning positive, the next upside target to watch for is 25,250, followed by 25,400. The options data now likely shows a shift in range, with put writers expected to build aggressive positions at the 25,000 strike.

Intraday Nifty

Resistance – 25120-25250-25400

Support – 25000-24850-24700

BANKNIFTY SPOT : IMMEDIATE SUPPORT 56000-55500

Source – TradingView, BP Equities Research

The banking index displayed remarkable strength, that led the market's rally with a powerful breakout above its key resistance level of 55,500. The formation of a large bullish candle indicates strong buying interest and suggests that the recent sideways-to-negative bias has been negated. The immediate support for the index has now moved higher to the 56,000-55,500 zone. Following this strong move, BANK NIFTY appears poised to re-challenge its lifetime highs near the 57,000 mark. We can expect options data to reflect this bullishness with significant put writing at the 56,000 strike, creating a new support level.

Intraday Banknifty

Resistance –56400-57000-57500

Support –56000-55500-55000
