

NIFTY SPOT : IMMEDIATE SUPPORT AT 25000-24850

Source – TradingView, BP Equities Research

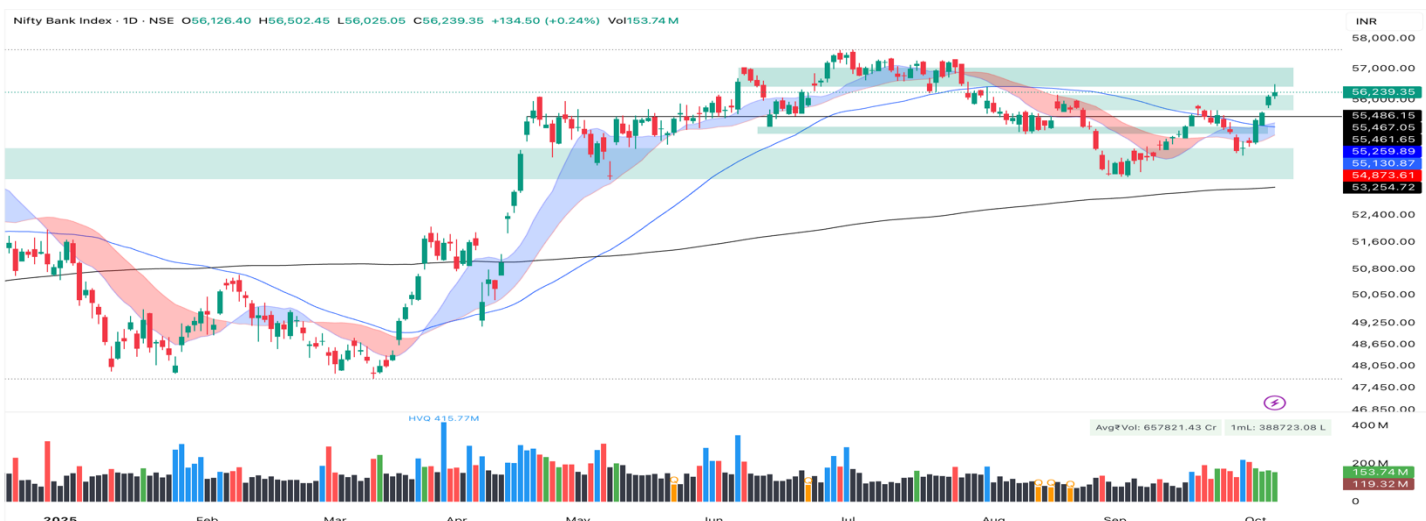

After a strong breakout, the benchmark index took a pause yesterday, trading within a narrow range and closing with a marginal gain. This price action can be seen as a healthy consolidation, where the market is absorbing yesterday's gains. The critical support level to watch remains the previous resistance zone of 25,000-25,100. As long as the index sustains above this zone, the short-term outlook remains bullish, and the index may be gathering strength for its next move towards the all-time high. The options data suggests that the 25,000 strike is solidifying as a strong support base, with significant put open interest.

Intraday Nifty

Resistance – 25250-25400-25540

Support – 25000-24850-24700

BANKNIFTY SPOT : IMMEDIATE SUPPORT 56000-55500

Source – TradingView, BP Equities Research

The banking index also entered a consolidation phase after its powerful rally, closing almost flat for the day. The index is holding comfortably above its breakout point, which is a sign of strength. The crucial support is now firmly established in the 55,500-55,600 zone. This pause is constructive, and as long as the index defends this support, the path of least resistance remains upward, with an eventual target of 57,000. On the options front, the 56,000 strike is likely emerging as a strong immediate floor for the market, attracting fresh put writing.

Intraday Banknifty

Resistance –56400-57000-57500

Support –56000-55500-55000
