

NIFTY SPOT : IMMEDIATE SUPPORT AT 25250-25120

Source – TradingView, BP Equities Research

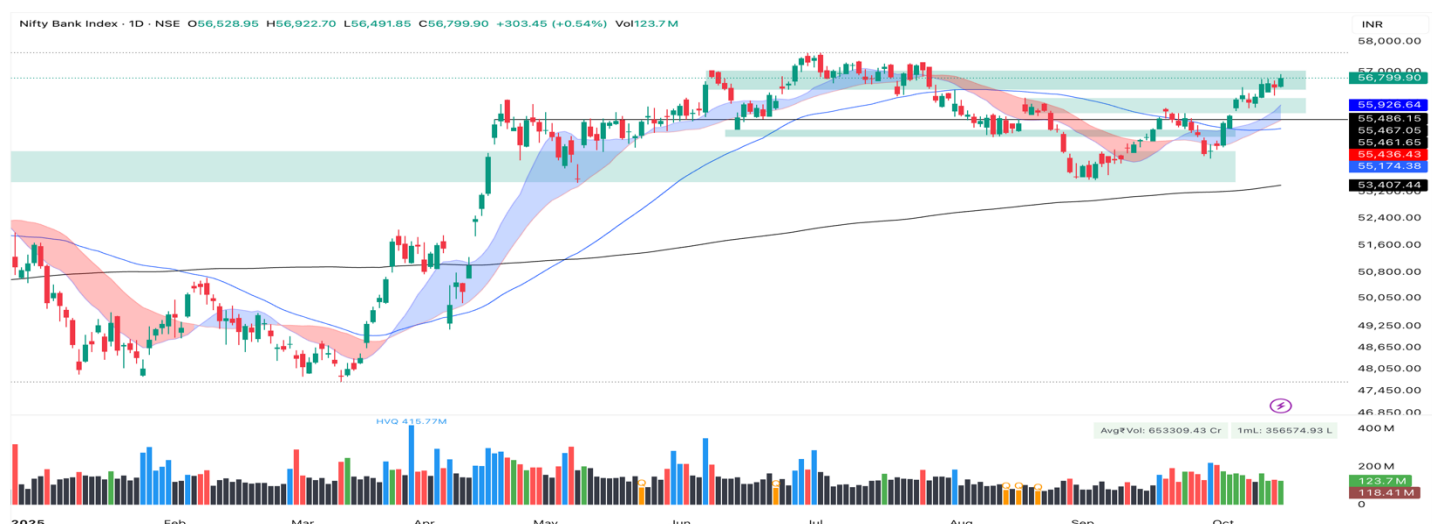

The benchmark index demonstrated remarkable strength, completely reversing the prior day's negative sentiment with a strong bullish candle. The index successfully reclaimed the critical 25,200 level, negating the fears of a failed breakout. This powerful recovery from the lows suggests that buyers are active on every dip, reinforcing the underlying bullish trend. The 25,200 mark will now act as a solid immediate support, with the index setting its sights back on the high near 25,500. Options data now shows that put writers have solidified their positions at the 25,200 strike, providing a strong cushion for the market.

Intraday Nifty

Resistance – 25400-25540-25670

Support – 25250-25120-25000

BANKNIFTY SPOT : IMMEDIATE SUPPORT 56200-55500

Source – TradingView, BP Equities Research

The banking index successfully held its crucial support zone around 56,200 and staged a smart recovery, closing firmly in the green. This price action confirms that the recent dip was a healthy pullback, with the primary uptrend remaining well intact. The successful defence of this support level shows resilience and paves the way for a potential move higher. The index is now poised to re-challenge its recent swing high and make a push towards the major psychological resistance at the 57,000 mark. The options data indicates that bulls have defended the 56,500 level well, shifting the immediate range higher.

Intraday Banknifty

Resistance – 57000-57400-57900

Support – 56200-55500-55000
