

NIFTY SPOT : IMMEDIATE SUPPORT AT 25450-25330

Source – TradingView, BP Equities Research

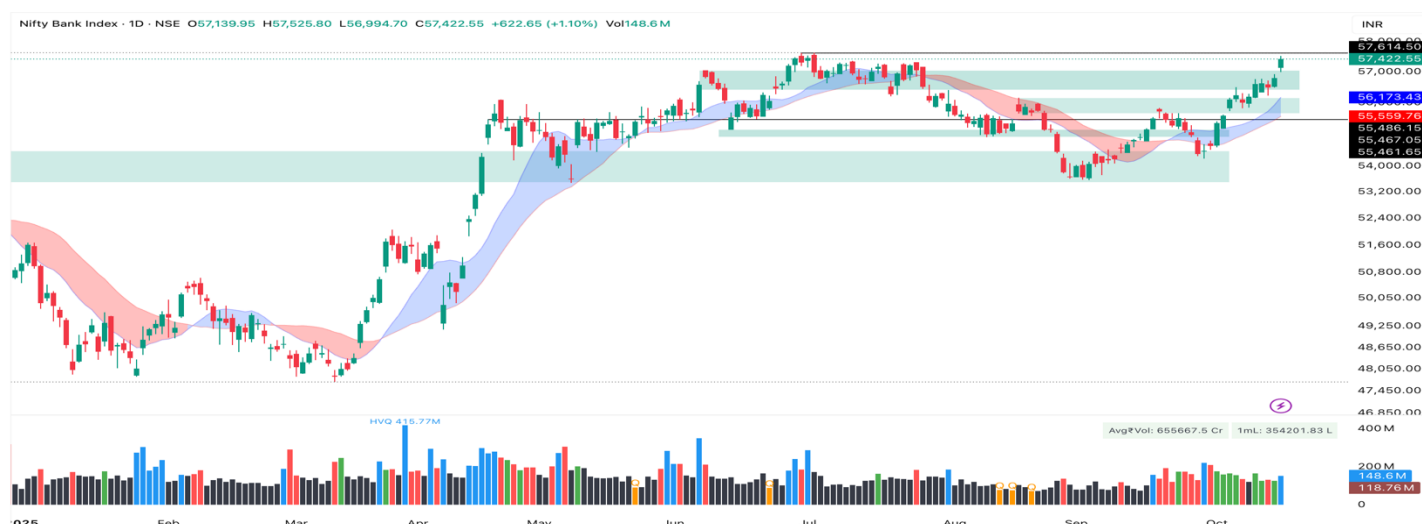

The benchmark index has shattered its previous swing high with a resounding breakout, propelled by a surge in buying momentum that resulted in a large bullish candle. This decisive move signals a strong continuation of the primary uptrend, leaving the recent consolidation phase far behind. The previous peak, around 25,450, will now pivot to become a critical support level for any potential pullbacks. With the index venturing into a higher territory, the sentiment is unequivocally bullish, and further upside can be expected. The options data will now see a major shift, with put writers likely building a new base at the 25,450 - 25,500 strike, providing a firm floor for the market.

Intraday Nifty

Resistance – 25640-25800-25960

Support – 25450-25330-25200

BANKNIFTY SPOT : IMMEDIATE SUPPORT 57000-56600

Source – TradingView, BP Equities Research

The banking index led the charge with exceptional force, breaking out to a new swing high and closing near the day's peak. The index has decisively cleared its previous major resistance around 57,000, which now becomes the new benchmark for support. This powerful price action indicates robust bullish sentiment and suggests the index is ready for the next leg of its rally. With overhead resistance breaking at 57,600, the next psychological target for the bulls will be the 58,000 mark. Options data reflects this extreme bullishness, with the 57,000 strike attracting significant put writing, cementing it as a strong foundation.

Intraday Banknifty

Resistance –57600-58000-58500

Support –57000-56600-56000
