

NIFTY SPOT : IMMEDIATE SUPPORT AT 25640-25520

Source – TradingView, BP Equities Research

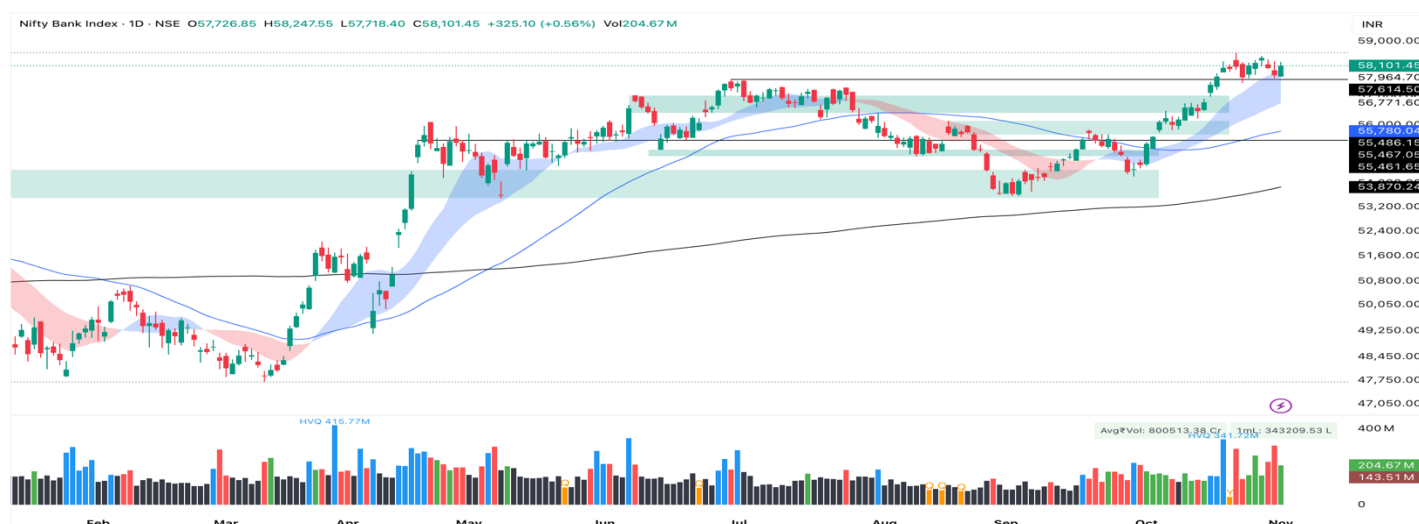

The benchmark index witnessed a day of indecision, forming a small candle and closing nearly flat after the sharp sell-off on Monday. This price action suggests a temporary pause in the selling pressure, as the index finds tentative support within its critical Gap Zone of 25,640-25,740. The lower end of this gap, 25,640, remains the most crucial support level that bulls must defend. A decisive break below this would signal a much deeper correction, while on the upside, the index needs to reclaim 25,820 to show any signs of a recovery. The market is in a state of equilibrium, and a clear directional move is awaited. Options data likely show a heavy concentration of call writers at 25,800, attempting to cap any pullback.

Intraday Nifty

Resistance – 25820-26000-26100

Support – 25640-25520-25400

BANKNIFTY SPOT : IMMEDIATE SUPPORT 57600-57000

Source – TradingView, BP Equities Research

The banking index showed significant resilience, forming a bullish candle and managing to reclaim the psychological 58,000 mark. This positive price action comes after the index successfully defended its key breakout support at 57,600, indicating that buyers are active at these lower levels. The sharp correction seems to have paused, but the index is not out of the woods yet, as the high of Friday's bearish candle near 58,300 will now act as a major resistance. The short-term trend will be dictated by a breakout from this newly formed range of 57,600-58,300. Options data suggests bulls are trying to rebuild a base at 58,000, but call writers at 58,300 and 58,500 remain a threat.

Intraday Banknifty

Resistance – 58300-58800-59200

Support – 57600-57000-56500
