

NIFTY SPOT : IMMEDIATE SUPPORT AT 25750-25640

Source – TradingView, BP Equities Research

The benchmark index took a well-deserved pause, forming a small, indecisive Doji candle. This price action represents a healthy consolidation as the market absorbs the recent gains. The critical former resistance zone of 25,640-25,750, which is also the top of the Gap Zone, has now successfully flipped into a strong immediate support base. As long as the index holds above this new floor, the bullish sentiment remains firmly intact. The index is likely gathering strength for its next attempt to challenge the swing high near the 26,050-26,100 mark. Options data confirms this, with put writers expected to aggressively defend the 25,800 strike.

BANKNIFTY SPOT : IMMEDIATE SUPPORT 58000-57600

Source – TradingView, BP Equities Research

The banking index continues to be the clear leader, displaying exceptional stability as it consolidates in a tight range just below its all-time high. The index is coiling for its next move and holding strong above the psychological 58,000 support level. This constructive price action, with low volatility at the peak, suggests that the market is in strong hands and is building momentum for a fresh breakout. The immediate resistance to watch is the lifetime high zone of 58,350-58,500. A decisive move above this will signal the start of the next leg of the rally. Options data shows bulls are in complete command, with the 58,000 strike being heavily fortified by put writers.
