

### NIFTY SPOT : IMMEDIATE SUPPORT AT 25200-25043

Source – TradingView, BP Equities Research

The benchmark index ended the session at 25,321, trading in a narrow range after recent volatility. On the daily chart, Nifty faced rejection near the 10 & 20 DMA cloud, indicating that short-term momentum remains weak and pullbacks are meeting supply. At the same time, price is taking support near the 200-DMA, which is acting as a crucial long-term support and preventing deeper downside for now. This support level should give investors a sense of stability amid the current weakness. Immediate resistance is at 25,380–25,460, while support is at 25,200–25,047. This suggests a tight trading range where a decisive move could occur. A strong move above 25,380 would signal buying strength above the moving average resistance, whereas a break below 25,200 could increase selling pressure. The overall bias remains cautiously negative unless the index reclaims the EMA cloud with sustained momentum.

### Intraday Nifty

**Resistance – 25380-25460-25550**

**Support – 25200-25043-24950**

### BANKNIFTY SPOT : IMMEDIATE SUPPORT 59500-59000

Source – TradingView, BP Equities Research

The Bank Nifty index closed at 59,610, witnessing mild profit booking after recent consolidation near higher levels. On the daily chart, price is hovering around the 10 & 20 DMA cloud, indicating short-term indecision after a strong prior up-move. The broader structure, however, remains constructive as the index continues to trade well above the 12 & 26 EMA cloud and comfortably above the rising 50-DMA, reflecting underlying strength. Immediate resistance is placed near 60,000–60,400, where supply has been visible in recent sessions, while immediate support is seen around 59,300–58,900. Price behavior suggests a time-wise consolidation rather than a price-wise correction, which is typically seen in strong trends. As long as Bank Nifty holds above the EMA cloud and the 59,000 zone, dips are likely to attract buying interest. A sustained move above 60,000 can open room for fresh upside momentum, while a break below 58,900 may lead to short-term weakness.

### Intraday Banknifty

**Resistance –60100-60500-61000**

**Support –59500-59000-58500**
