

NIFTY SPOT : IMMEDIATE SUPPORT AT 25800-25640

Source – TradingView, BP Equities Research

The benchmark index opened with a significant gap-up, driven by positive sentiment, but witnessed slight profit booking at higher levels registering gains of 174 points. The price action remains constructive as it comfortably sustained above the previous session's high and the immediate support zone of 25,750–25,780. The gap area created this morning is now acting as a critical demand floor. The index is currently challenging the resistance band of 25,950–26,000; a decisive close above this is essential to target the 26,100 mark. Options data aligns with this view, with Call writers firmly positioned at 26,000, capping the immediate upside, while Put writers have aggressively shifted their base higher to 25,700 and 25,800, signaling a buy on dips texture.

Intraday Nifty

Resistance – 26000-26120-26250

Support – 25800-25640-25500

BANKNIFTY SPOT : IMMEDIATE SUPPORT 60500-60000

Source – TradingView, BP Equities Research

The banking index outperformed the broader market, surging 549 points to close at 60,669. Similar to the benchmark, the banking index opened at a high of 60,805, indicating that traders utilized the gap-up to book profits near the 61,000 resistance zone. However, the structural breakout is significant as the index has decisively cleared the recent consolidation hurdles and sustained well above the psychological 60,500 mark. This consolidation at higher levels suggests a time correction before the next leg of the rally. The immediate support is now placed at 60,400–60,500, while a move above 61,000 will reopen the path towards 61,300. Options data suggests a bullish undercurrent, with significant Put writing observed at 60,500, providing a cushion, while the 61,000 Call strike remains the key barrier to cross.

Intraday Banknifty

Resistance –61000-61500-62000

Support –60500-60000-59500
