

NIFTY SPOT : IMMEDIATE SUPPORT AT 23460-23330

Source – TradingView, BP Equities Research

Nifty 50 closed at 23,548, declining 359 points in a structurally damaging session. The index opened near 23,902, rallied briefly to 24,002 before collapsing to the session low of 23,484 and closing near it, a textbook bearish engulfing candle. The defining data point is volume at 1.2B, confirming this as an unambiguous institutional distribution session and the most volume-confirmed bearish candle in the entire corrective phase. Both the 50 DMA and the cloud were breached on a closing basis, and the MACD histogram has collapsed effectively eliminating the bullish divergence that had been building since May. GIFT Nifty implies a gap-up opening into the 50 DMA and lower cloud boundary zone. This gap-up must be treated as a sell-on-rise unless the index sustains above 23,700 on strong volume, as it directly tests the breakdown zone. RSI at 43.37 is declining. Key support is at 23,460 followed by 23,330.

Intraday Nifty

Resistance – 23700-23860-24000

Support – 23460-23330-23200

BANKNIFTY SPOT : IMMEDIATE SUPPORT 54000-53500

Source – TradingView, BP Equities Research

Bank Nifty closed at 54,239, declining 614 points on volume of 1.04B, the second consecutive high-volume distribution session and the clearest institutional selling signal in months. The 50 DMA was breached on a closing basis; however the close remains inside the cloud, making 54,000 the critical support that must hold to prevent a full cloud breakdown. A gap-up opening consistent with GIFT Nifty cues would bring the index back toward the 50 DMA at 54,476 and the upper cloud boundary at 54,807. Both of these resistance levels to be sold on approach unless reclaimed with institutional-grade volume. The MACD histogram is contracting but remains the lone positive signal. RSI at 46.91 is heading toward oversold. A daily close below 54,000 would confirm cloud breakdown and target 53,000 to 53,500. The high volume distribution sessions materially reduce the probability of a sustained recovery without a structural reset.

Intraday Banknifty

Resistance – 55000-55500-56000

Support – 54000-53500-53000
