

NIFTY SPOT : IMMEDIATE SUPPORT AT 23380-23250

Source – TradingView, BP Equities Research

Nifty 50 closed at 23,417, gaining 11 points in a structurally significant session. The index gapped down 123 points to open at 23,282, tested the demand zone before staging a 169-point intraday rally to close above the previous session's close, forming a bullish gap-down recovery candle for the fourth consecutive session within the demand zone. This persistent pattern of absorbing gap-down opens is a credible institutional accumulation signal. GIFT Nifty implies a gap-up, placing the index near 23,500, still below the cloud and 50 DMA at 23,680, making the confluence the defining resistance. A close above 23,680 would be the first 50 DMA reclaim since breakdown. MACD histogram is deepening with MACD line below signal reflecting bearish momentum that has not yet confirmed the price recovery. Any intraday longs must respect this divergence. RSI at 41.72 is approaching oversold while volume remained below average.

Intraday Nifty

Resistance – 23680-23830-24000

Support – 23380-23250-23120

BANKNIFTY SPOT : IMMEDIATE SUPPORT 54000-53500

Source – TradingView, BP Equities Research

Bank Nifty closed at 54,308, gaining 122 points in a strong bullish gap-down recovery candle. The index gapped down 267 points from the previous close to open at 53,918, made a session low of 53,829 before rallying 478 points to close above the prior session, maintaining its second consecutive close inside the cloud. The consistent pattern of gap-down absorption followed by a close above the previous session in the demand zone reflects sustained institutional buying. A gap-up consistent with GIFT Nifty cues would open the index near the 50 DMA. 54,500 and cloud have converged to within a single point, forming the most precise dual resistance of this corrective phase. A sustained close above 54,500 constitutes a simultaneous 50 DMA and cloud reclaim. MACD histogram has expanded for the second consecutive session with MACD line firmly above signal. RSI at 48.57 is on the verge of crossing 50. Volume remained below average remaining the caveat. Intraday support is placed at 54,000 followed by 53,500.
