

## NIFTY SPOT : IMMEDIATE SUPPORT AT 23050-22920

Source – TradingView, BP Equities Research

Nifty 50 closed at 23,215, declining 27 points in a shooting star candle with a 191-point upper shadow. The index rallied to 23,425 before complete rejection, confirming that overhead supply between 23,400 and 23,425 is institutional grade and not easily absorbed. GIFT Nifty implies a gap-down, pushing the index around 23,100 at the open, below the demand zone floor that has held for seven consecutive sessions. A gap-down breach followed by a close below 23,100 would be the most bearish structural development in several weeks, signalling a fresh downleg toward 22,700. A hold above 23,050 with a reversal candle remains the only setup for longs. MACD histogram continues to improve marginally, with MACD line still below signal, the bearish momentum is decelerating but has not reversed. RSI at 39.01 remains in near-oversold territory. 23,280 and 23,450 remain distant overhead resistances.

### Intraday Nifty

**Resistance – 23270-23400-23540**

**Support – 23050-22920-22780**

## BANKNIFTY SPOT : IMMEDIATE SUPPORT 54500-54000

Source – TradingView, BP Equities Research

Bank Nifty closed at 55,100, printing a shooting star with a massive 445-point upper shadow rejected at the session high of 55,555, a classic supply absorption signal indicating that institutional sellers are positioned at the 55,500 horizontal resistance zone. Despite the bearish candle structure, the cloud breakout and 50 DMA reclaim are both maintained with comfortable buffers. A gap-down opening consistent with GIFT Nifty cues would bring the index toward 54,700, still above both and should be treated as a buy-on-dip opportunity unless the index closes below 54,500. The most significant technical development on the daily chart is the MACD line, which is within one to two sessions of crossing above the zero line. A bullish MACD zero-line crossover would be a major medium-term buy signal and must be monitored closely. MACD histogram expanding with RSI at 54.66 above 50 confirm momentum is constructive despite the shooting star. 55,500 is the immediate supply zone; 54,500 is the key support. Medium-term bias in BankNifty is improving.

### Intraday Banknifty

**Resistance –55500-56000-56500**

**Support –54500-54000-53500**
