

NIFTY SPOT : IMMEDIATE SUPPORT AT 24140-24000

Source – TradingView, BP Equities Research

The benchmark index closed at 24,208, down 127 points, in a bearish marubozu structure that closed exactly at the session low with no lower wick, the mirror image of Tuesday's bullish marubozu that closed at the high, after opening at 24,342 and reaching a marginal new high of 24,379 that fell just short of the 24,430 resistance before sellers took full control for the rest of the session. This breaks decisively below the 24,270 support, and the close now sits almost exactly on the 50 DMA, a coincidence worth noting. RSI eased, back below the midline, and MACD line fell with the histogram narrowing sharply, both confirming the loss of the prior session's momentum. Volume was slightly higher than Tuesday's, meaning the reversal carried marginally firmer participation than the breakout it erased. GIFT Nifty implies a gap up, which would open the index back above both the 50 DMA and the 24,270 level, making today's session a direct test of whether Wednesday's reversal was a one session pullback or the start of something more sustained.

Intraday Nifty

Resistance – 24270-24430-24580

Support – 24140-24000-23860

BANKNIFTY SPOT : IMMEDIATE SUPPORT 57000-56500

Source – TradingView, BP Equities Research

The banking index closed at 57,784, up 270 points, opening at 57,629 already above the 50 DMA, pushing to a fresh high of 57,996 that approached the round 58,000 level before a rejection wick pulled the session back, closing well off the high on a candle with a long upper shadow against a modest body. Despite the pullback from the highs, the close decisively reclaims the 50 DMA, ending the sandwich structure between the two averages that had defined the past week, with the close now clear of the 200 DMA. RSI advanced, and MACD line rose sharply, with the histogram widening to 64, both confirming the reclaim rather than lagging it. Volume eased from Tuesday's, meaning the push toward 58,000 lacked the participation of the prior session's wide range day, a mild caveat on an otherwise decisive reclaim. With Nifty implying a firm gap up despite its own reversal lower, Bank Nifty should also open higher, with the reclaimed 50 DMA now the level to hold and 58,000 the level to watch on any renewed push toward the highs.

Intraday Banknifty

Resistance – 58000-58500-59000

Support – 57000-56500-56000
