The session opened at 23,522, tested a high of 23,572, and sold off through the day without any recovery into the close, leaving no lower wick on the candle. OP Bhatt quits as Coforge chair after internal audit flags disclosure gaps

Coforge's non-executive Chairman O P Bhatt resigned with immediate effect after an internal audit flagged concerns over the handling and disclosure of a board evaluation report, weeks after shareholders voted against his reappointment at the AGM. Vivek Sharma, a non-executive independent director, has been appointed interim chairman until January 31, 2027, and Bhatt has stepped down from all board committees. Proxy advisory firms IIAS and InGovern Research Services flagged the episode as unusual, with InGovern noting it reflected a disagreement between Bhatt and Advent International, Coforge's largest shareholder. The internal audit, part of the company's Q2 audit plan, examined the board evaluation exercise conducted under Bhatt's guidance and the report subsequently presented to directors.

At summit, India to position Brics as a 'bridge builder'

The two-day Brics summit beginning Saturday at New Delhi's Bharat Mandapam will see host India position the 11-member grouping as a "complementary, development-oriented" forum, sidestepping contentious proposals like a common Brics currency backed by Russia and China. As chair, India will showcase over 50 development-oriented outcomes from Brics meetings this year and seek support for its UN Security Council bid for 2028-29. Key events include the Brics Business Forum and Modi-Putin bilateral talks on September 11, focused partly on upgrading BrahMos missile cooperation; a closed session on global governance on September 12; and a session on inclusive growth on September 13. Attendees include Chinese President Xi Jinping, Russian President Putin, and leaders from Iran, South Africa, Indonesia, Egypt and Ethiopia, alongside partner countries and outreach invitees like the Philippines, Bahrain and Bangladesh. A key challenge will be getting Iran and the UAE to agree on a joint statement, given their involvement in the West Asia crisis; China takes over the Brics chair from India after this summit.

Iran, US intensify attacks on oil tankers

Iran said it attacked 10 ships near the Strait of Hormuz after the US sank five Iranian oil tankers, marking the biggest wave of tit-for-tat shipping attacks since the six-month war began. The attacks pushed Brent crude above \$100 a barrel for the first time since July, with at least one seafarer killed and another missing. Iran also fired ballistic missiles at a US-used base in Jordan, though Jordan's air defences intercepted most of them with no casualties. The US said its strikes were retaliation for Iran's IRGC targeting a US Navy warship, and warned Iran would lose more tankers for every future attack. Separately, Pakistan's defence minister warned that an attack on Saudi Arabia could activate the Mecca Defence Alliance's collective-defence provisions, following Houthi missile and drone strikes on Saudi Arabia that injured at least 73 civilians.
